

1. 🎓 NMC tightens PG medical education norms

- The **National Medical Commission (NMC)** implemented **revised PG medical education standards**.
 - Key changes:
 - Stricter **faculty requirements**
 - Improved **infrastructure & clinical material**
 - Standardized training across institutions
 - Aim: Improve **quality & uniformity of specialist training** in India.
-

2. 👩‍⚕️ Rising global demand for Indian nurses

- Indian nurses are increasingly in demand in countries like **Japan and Germany**.
 - Government focus:
 - Expanding **nursing colleges & training centers**
 - Promoting **language skills + global placement readiness**
 - Indicates strengthening of **India's healthcare workforce export potential**.
-

3. 📊 NEET PG seat vacancy concern

- **1,100+ PG medical seats remain vacant nationwide** after counselling.
 - Majority vacancies in **non-clinical branches** (anatomy, physiology, microbiology).
 - Trend shows preference for:
 - Radiology
 - Dermatology
 - General Surgery
 - ➡️ Reflects **specialty imbalance in workforce planning**.
-

4. Healthcare safety concern – ambulance accident

- **7 deaths reported in Assam** after an ambulance collided with a truck.
 - Highlights:
 - Need for **emergency transport safety protocols**
 - Better **trauma care systems & road safety enforcement**
-

5. Digital health expansion continues

- Large-scale progress in:
 - **ABHA digital health IDs (14+ crore issued)**
 - Telemedicine expansion at CHCs
 - Reinforces India's push toward **digital healthcare ecosystem.**
-

6. Policy trend: Universal health coverage roadmap

- Government aims for **universal health coverage by 2033.**
- Increasing focus on:
 - Insurance penetration
 - Accessibility
 - Public health infrastructure
